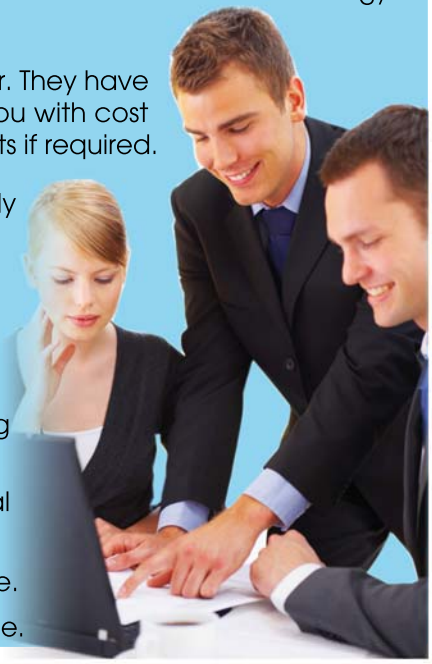
Why Choose TSS Group?

The TSS Group is a group of dedicated business technology equipment installers, backed by the TSS Group National Head Office located in Sydney. We have been involved with business technology products for over 25 years and have local agents located throughout Australia. When you call us on our ***1300 889 586*** number, one of our friendly sales staff will be able to discuss your individual needs and have your local TSS Group Member contact you. They will then organise to visit you, to go over your requirements and provide a total business technology solution plan.

This brochure contains the most popular packaged solutions that we have to offer. They have been specifically designed for easy installation and operation and to provide you with cost effective solutions. TSS Group Members have access to hundreds of other products if required.

All of our TSS Group members are screened to ensure that you get reliable and friendly service and each is backed by our TSS Group Guarantee. They will provide all equipment required, installation and more…..



TSS GROUP GUARANTEE

All of our TSS members are trained professionals offering full product understanding and technical expertise.

All installations will be carried out in a timely and professional manner with minimal disruption to your operations.

All products are of high quality and backed by TSS Group's National Head Office.

Your local TSS Group Member will provide ongoing support and after sales assistance.

* Supplied and installed pricing provided in this brochure is subject to the following terms and conditions: TSS Group Members reserve the right to carry out a site inspection to confirm a final price. Pricing shown has allowed for a maximum cable run of 50m per device from a central location in a single story building. Additional charges may be incurred for longer distances, hire of specialised equipment such as cherry pickers or scissor lifts etc...
Note: Prices and specifications may be changed without notice. Each TSS Group Member will individually hold all necessary licences to carry out sales and installation.
TSS Group Head Office Security Master Licence: 407530935
Rental amounts incl.GST & are based on a 48 month term to approved purchasers only.

Self Install Monitored Wireless Alarm System

with 2 Wireless PIR Sensors and 2 High Security Remote Controls

This is a high-quality, professional grade monitored security system that is easy to use and install. Simply use the remote control button to arm the system before you leave your premises. If movement is detected after the system has been armed, the communication dialer will transmit the detailed alarm activation data via phone line to our monitoring centre for appropriate response action to be taken. The system can be expanded to meet your needs.

System Includes:

- 8 Zone Alarm Control Panel with Back-up Battery and In-built Siren
- 2 x Wireless Movement Sensors - designed to detect the body movement of an intruder inside your premises.
- 2 x Code Hopping Remote Controls - allow you to easily arm and disarm the system or activate the panic facility from virtually anywhere around your premises. Optional wireless keypad with PIN also available.

Ever Need to Know Where your Vehicle is Right Now? or Where it Has Been?

Slash Your Vehicle Operating Costs with a Vehicle Tracking or Fleet Management System

Running a fleet of company vehicles is certainly expensive, but with a TSS Vehicle Tracking / Fleet Management System you can significantly reduce your operating costs by:

- Monitoring vehicle use – both authorised and non authorised ie. weekday vs. weekend
- Monitoring driving behaviour such as speeding, hours of operation, distance travelled each day
- Reviewing travel routes taken to reduce travel times / fuel usage
- Log times spent at locations – ideal for verifying customer visits / service calls / time on location / actual hours worked
- Locating and dispatching your closest vehicle to your client
- Monitoring fuel usage vs. distances travelled ie. detect fuel theft
- Various systems are available from basic GPS tracking modules to complete vehicle telemetric systems with 2 way audio, alarm sensor inputs and detailed online reporting, plus much more…

*Ongoing GSM / GPRS SIM data charges not included
*Monitor not included

Mobile Vehicle Digital Video Recorder with GPS Location & Speed Recording

This "Black Box" Digital Video Recorder for vehicles is ideal for monitoring driver behaviour, proving deliveries have been made or providing evidence in case of an accident. You can connect up to 4 cameras if required ie. front view, rear view, driver view, passenger / cargo view. The in-built GPS receiver overlays recorded footage with the GPS location, speed, date, time and direction of travel. Optional sensor connections include brake on/off, indicators on/off, door open, reverse gear selected plus multiple alarm sensor inputs. Recorded footage is stored on a removable hard drive and can also be backed up via a USB connection.

Price includes 4 CH Mobile DVR, 80GB HDD and 1 x Number Plate Mount Camera (various other camera styles available)
